

new endodontic microsurgical course

**2 DAY INTENSIVE HANDS-ON
APICOECTOMY TRAINING UNDER MICROSCOPE**

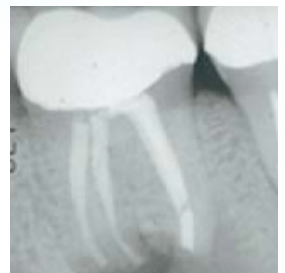

11TH & 12TH MAY 2015

King's College London, 3rd Floor Franklin-Wilkins Building
150 Stamford Street, LONDON SE1 9NH

SUBJECTS COVERED

- treatment planning and considerations
- incision techniques and micro-suturing
- osteotomy window
- ultrasonic retrograde preparation and filling
- bone augmentation

This course is intended for the serious generalist, special interest dentist, specialist endodontist or oral surgeon who wishes to extend his/her knowledge and expertise. The hands-on training will fortify and will positively impact the trainee's confidence and skill for this challenging and important treatment option after failed root treatments.

The hands-on training will include preparing apicoectomies on at least 6 extracted teeth set in phantom heads with the use of microscopes and more.

Please phone Dr Zolty BDS MSc
0161 792 5223 or 07780 901 916

or email info@proendo.co.uk for more details.
Sessions are limited and booked on a first come first served basis.

£649.00 per day

AIMS: to advance the standard of surgical endodontics.

OBJECTIVES: to obtain a full and current knowledge and skill to perform microsurgical endodontics with confidence. The hands-on training will provide not only the necessary skill but ensure there is coherence in its implementation.

OUTCOME: the participant will obtain information for treatment planning and the necessary skill to perform the complex endodontic surgery.

14 hours cpd

MICROSURGICAL ENDODONTICS

Microsurgical Endodontics is one of the triad in the specialty of Endodontics. The Endodontic triad includes Root canal therapy, Retreatment and Microsurgical Endodontics. Advanced endodontics cannot be practiced without the understanding of sound endodontic principles, knowledge of state of the art of surgery technique and clinical experience. The two full-day course will provide you with the latest information of microsurgical endodontic techniques and then practical hands-on experience. The course is intensive but the clinician will gain the confidence to apply the learned techniques in their surgery. I hope you will excel in the practical application of the advanced techniques set out in the program.

The course costs: £649 per day

The fee includes refreshments, a standing buffet lunch and all course documentation.

If you would like to attend, please email info@proendo.co.uk

ACCREDITATION

The course meets the educational criteria set by the GDC for verifiable CPD (14 hours).

FURTHER INFORMATION

A deposit of £649 will be needed to confirm the limited place on the course. There is a restriction on the number of participants on the course and will be booked on a first-come-first-served basis.

CANCELLATION POLICY

All cancellation must be received in writing by email or post as above. Cancellations received 29 days or more prior to the agreed course date will be entitled to 100% refund. Cancellations received between 29-15 days will receive 50% refund. Cancellations received less than 14 days will not be entitled to a refund of the deposit. Substitutions are welcome at any time.

Due to unforeseen circumstances, the course may change and we reserve the right to cancel the event or alter the venue.

PROGRAM

DAY ONE

- 8:30 registration, refreshments and exhibition
- 9:00 sponsors message and welcome
- 9:10 microsurgical endodontics lecture
 - Presurgical considerations*
 - Step-by-Step: Anaesthesia, flap design-incision techniques*
- 10:30 morning refreshments and exhibition
- 10:40 practical incision techniques
 - (Triangular, Luebke-Ochsenbein, Rectangular and PBIT on pig's jaw)*
- 11:10 microsurgical endodontics lecture
 - Cont. Step-by-Step: Elevation, retraction, osteotomy window, curettage, haemostasis, apicoectomy, ultrasonic retrograde cavity, drying, obturation*
 - Micro-suturing*
- 12:30 lunch and exhibition
- 13:00 microsurgical endodontics lecture
 - Post-operative care and instructions*
 - Post-surgical considerations*
 - Endo-perio considerations*
 - Treatment of bone defects*
- 14:30 afternoon refreshments and exhibition
- 14:40 practical micro-suturing techniques
- 15:20 microsurgical endodontics lecture
 - Success rates of microsurgical endodontics*
 - Intentional replantation*
- 17:00 last comments

DAY TWO

- 9:00 refreshments and exhibition
- 9:15 Question and Answer
- 9:40 practical apicoectomy on models using microscopes
 - Apicoectomy on extracted UR4, UL1, UL6, LL6, LL2 and LR5*
- 10:30 morning refreshments and exhibition
- 10:40 practical apicoectomy on models using microscopes
 - Apicoectomy on extracted UR4, UL1, UL6, LL6, LL2 and LR5*
- 12:30 lunch and exhibition
- 13:00 practical apicoectomy on models using microscopes
 - Apicoectomy on extracted UR4, UL1, UL6, LL6, LL2 and LR5*
 - Treat bony dehiscence*
- 14:30 afternoon refreshments and exhibition
- 14:40 practical apicoectomy on models using microscopes
 - Prepare hemisection on LL6*
 - Prepare MB root resection on UL6*
- 16:30 Question and Answer and Multiple Choice Test
- 17:00 closing comments
- 21:00 early night!!
